Hi Paul,

I was so happy that you were available to come and do the painting for us. I was very pleased with the way everything turned out - it looks great! I appreciate the effort you went to to make everything right for us, such as matching colours and filling cracks, etc. I would like to mention that Blair Ke**y, co-owner of Pacific View Windows and Doors, commented on what a great job the painter had done. Blair's previous career was as a painter himself. Thanks for your offer to help and when/if I need it, I will definitely call. It was a pleasure having you here in our home. :)
